Attention: Warren Casperson
President

Dear Warren:

This letter is to bring you up to date on the testing results using Enviro-Save Gear Treatment on new rear end gears.

The gears were installed using Enviro-Save for the World Record Drag Racing Event in Oregon.

1. Gears installed .001 back lash July 1, 1990.
2. Twenty runs later the gears were measured and tested, back lash measured no wear August 1, 1990.
3. Forty runs later the gears were inspected and back lash measured no wear September 1, 1990.
4. Sixty runs later gears were inspected and measured - no wear was evident - October 1, 1990.

Enviro-Save is a product I believe in and is essential to my extensive drag race program.

I will continue to keep you informed of the results of future testing.

Yours truly,

Buck Kinney
