Attention: Mr. Warren Casperson President
Subject: Product performance

Dear Warren,

Convoy has used your products since 1990 in our industrial, marine, automotive and aviation equipment.

Most important is the money we have saved on fuel costs, which has consistently been between 11-18+%, one in particular is my BMW M5 – which we receive 44+mi/gal; e.g. Vancouver to California border 1 tank of fuel. We have experienced an increase of 2 – 5 times the life of engines and other components. We really appreciate the increase in durability, reliability and consistent quality of your Enviro-Save treatments; we can not recommend it more. The importance of the durability & performance of this product make it a winner in addition to using good lubricants.

Warren, I have the highest praise for your products.

Yours very truly,
Convoy Engineering

E.R. Salmon / President
